

Al Awir Used Car Complex

Phase 2

Dubai, UAE

Client: Dubai Municipality
Dubai, UAE

Scope: 8 Pavilion Showroom

Phase 2 of the Al Awir Used Car Complex facility is an eight pavilion showroom designed to provide the Municipality of Dubai with a commercial centre consolidating various independent car showrooms into a convenient, fully leasable business hub. The complex accommodates over 100 car dealers and incorporates a car registration department, insurance companies and a branch of the Middle East Bank.

Engineering services provided for the project included roads and infrastructure design and traffic analysis assessment. Utilities were integrated into the public networks to support the various car showrooms, offices and workshops.
