

Aloft Hotel Abu Dhabi, UAE

Client: Confidential
Abu Dhabi, UAE

Scope: 65,000 m²
160 storey

Abu Dhabi's Aloft Hotel is the first of Abu Dhabi National Exhibition Centre (ADNEC)'s on-site hotels to open, and creates something new for Abu Dhabi. The 65,000 m² hotel, which will be the second largest in Abu Dhabi, has been delivered on an incredibly tight schedule since work began on the project in March 2008.

With its urban influenced design, the 16-storey, 408-key hotel sits on top of the concourse and is linked directly to the Abu Dhabi National Exhibition Centre, a key part of the Capital Centre mixed-use development.

The loft-like rooms have nine-foot ceilings and oversized windows, large, stylish bathrooms and provide hi-tech office and entertainment facilities.
