

Aviation Club Hotel Dubai, UAE

Client: Aviation Club
Dubai, UAE

Scope: 291-room Hotel
60,000 m²
10-storey Hotel

The Aviation Club Hotel is a modern, luxury 5-star boutique hotel development designed as a one of a kind hospitality experience that will be distinguished from the standard corporate hotel market. Located on the grounds of the existing Aviation Club, the 291 room, 60,000 m² 10-storey hotel will command magnificent views of the famous Dubai Creek.

The hotel consists of three wings of rooms arranged around a central jewel-like glazed atrium. This central 'living room' space rises full height from the reception level to the roof-top pool which cantilevers out into the atrium void from the 8th floor sun deck.

Glass bridges and scenic lifts cross this dynamic volume at various levels further adding to the drama of the space.
