

## Dubai Tower Jeddah, Saudi Arabia

**Client:** Sama Dubai

**Scope:** 450,000 m2 mixed-use function Tower

The design for Dubai Towers at Jeddah is an iconic multi-storey, elegantly proportioned skyscraper providing over 450,000 m2 of mixed-use functions including offices, a 5-star hotel, serviced apartments, residential apartments, spa, ballroom, marina and a retail podium with three underground parking levels.

The residential and office towers (82- and 23-storeys) complement each other in their graceful and dynamic forms, rising 360 and 140 meters respectively. The two storey podium will contain the retail, ballroom and lobbies serving the towers.
