

The Greens Plot No. 27 Dubai, UAE

Client: Emaar Properties
Dubai, UAE

Scope: 4 low-rise buildings

This project is part of a residential community development being carried out by Emaar Properties in the proximity of the Emirates Golf Club. The developer designed The Greens, Dubai as groups of four low-rise buildings to offer views of the community, marina and Emirates Golf Course.

The buildings are positioned to surround communal courtyards, with beautiful gardens, swimming pools, gyms and barbeque areas for residents to use. The concept of grouping the buildings between the facilities promotes the idea of a community which is also promoted through the low-rise design.
