

VA Northern California Nursing Home Care Unit Martinez, California

Client: VA Northern California
System of Clinics

Scope: 68,000 sq. ft. Nursing Home Care Unit

The Nursing Home Care Unit is a single story building accommodating 120 nursing and psychogeriatric beds. The nursing home includes three nursing wings, a kitchen, and an administration and materials management area with a loading dock. The mechanical plant contains equipment to provide heating hot water, domestic hot water, oxygen, medical vacuum and compressed air to the patient beds.
